APPENDIX F

PROJECT REPORT CRITERIA

**SAFE DRINKING WATER BRANCH
HAWAII DEPARTMENT OF HEALTH**

PROJECT REPORT CRITERIA

The Project Report should describe the scope of the project and contain as much information necessary to address the following criteria:

1. A statement of the project needs and benefits, including a discussion of the water quality benefits and/or public health problems to be corrected.
2. A description of the proposed drinking water facilities project and the public water system of which it is a part.
3. An evaluation of the alternatives considered to address the project needs.
4. A description of the selected alternative and the relevant design criteria used.
5. Cost information on the estimated total capital costs and the annual operation and maintenance costs for the project.

Wherever possible, the applicant should utilize existing information already developed for the project's Environmental Assessment documents and/or Engineering Report. Additional information may also be obtained through the engineering report required by the Surface Water Treatment Rule Administrative Manual (section III.A.1) for all proposed or existing surface water treatment plants.
